

## ZWMP\_D1K

AUT / WEN / MOD

Module is used to control of Z-Wave devices, cooperating with rain, wind and smoke sensors.

### Electric parameters

Radio protocol	Z-Wave
Radio frequency [MHz]	EU 868,4
Supply voltage [V AC]	230
Power frequency [Hz]	50
Number of channels/groups	3
Power cable [mm <sup>2</sup> ]	2x0,75

### Supported sensors

- rain sensor ZRD;
- wind detector ZWD;
- wind detector ZWD;
- smoke detector ZFD;

Operating temperature [°C]	(-10) - (+65)
----------------------------	---------------

### Other

Automation components	Modules
Technology	Z-Wave

### Dimensions

Width [mm]	90
Height [mm]	130
Depth [mm]	50
