

CAP SHEET

Katepal Pintari

Katepal Pintari is a cap sheet with a coloured-granule finish and fine sand underneath.

FIELD OF USE

Katepal Pintari is a strong cap sheet suitable for traditional triangular batten roofing. It can also be used as a valley membrane and for roof details. The minimum slope for triangular batten roofing is 1:3 and the minimum installation temperature is +5°C. It is secured to the substrate mechanically with roofing nails and/or by bonding with K-36 Sealing Compound. The reinforcement layer is polyester.

HANDLING AND STORAGE

Katepal products should be stored away from direct sunlight and moisture and handled with care before installation. Roll products should be stored in an upright position – rolls transported horizontally should be turned upright after receiving the order. Pallets must not be stacked. Pay attention to safe lifting practices: pallet lifting instructions can be found via the QR code on the pallet's plastic wrap.

Installation method	Mechanical fastening
Dimensions	0.7 x 10 m
Pieces per pallet	24 pcs
Size of sales unit (m ²)	7 m ²
Areal weight (kg/m ²)	3.8 kg
Package weight	Black 30 kg, other colors 27 kg
Surface	Granule
Bottom surface	Sand
