

# ONDULINE® EAVES VENTILATOR STRIP

## Material Application

The ONDULINE® VENTILATOR STRIP is fixed at eaves to allow ventilation and to prevent the ingress of birds and rodents.

Prevents infiltration of debris into the eaves and is suitable for use with Onduline roofing sheets as well as profiled tiles and slates.

## Application

- Used at the eaves to allow ventilation to the roof space
- Protection against debris and nesting.
- Suitable for use on any type of roof from domestic, commercial to leisure buildings.

## Features & Benefits

- UV resistant for longlasting performance
- Made from polypropylene (PPE) to withstand excess heat
- Can prolong the roof by protecting the eaves from insects and birds nesting and any debris.
- Quick and easy to install.

## Technical characteristics

### DIMENSIONS & WEIGHT
